

High Performance Alloys & special steels for motorsport applications

**F1 - Rally
WRC - Kart
Racing - Moto**

We provide a complete range of high-performance materials for all of your critical parts that require heat resistance, corrosion resistance, weight saving, higher strength or fatigue life.

A WIDE RANGE OF GRADE

Titanium-based alloys

- TA6V
- Ti6242
- Ti6246

Nickel-based alloys

- Nimonic80A®
- Nimonic 90®
- Inconel 625

Special Steels

- 40CDV20
- 20NCD13

Stainless Steels

- 17-4 PH
- 300 M
- 1.4123
- 15-5 PH

Copper-based alloys

- CuBe2
- ToughMet3®

POWDERS FOR ADDITIVE MANUFACTURING

Titanium alloys, Stainless Steels, Copper alloys

CONTACT

Non exhaustive list, for any
other request please contact us :

PARTS

Engine

- Crankshafts
- Connecting rods
- Bearings

Valvetrain

- Camshafts
- Valves
- Springs

Chassis

- Fasteners
- Torsion bars

Drivetrain

- Gears
- Shafts
- Bearings
